

Environmental Protection Activities of 2006 & Plans for 2007

	Plan for 2006		Actual for 2006
Environmental Policy	Environmental Objective (Mid-term Target) (FY 20 ~ 24) : Till March 2010 Against FY 19 results	Environmental Target (Short Term Target) (Reduction for one Year: △% reduction /year against FY 19)	
Save Energy	◆ Reduce Corporate Power consumption by 5%/unit	* Overall power consumption..... 1% /unit	● 0.7%/unit reduction
		* Product development.....ETL 1%/h	● 9.1%/h reduction
		* Product/general affairs...Production equipment 1%/unit	● 2.8%/unit reduction
		* Office...A/C, Lighting etc. 5.5%/unit	● 17.7%/unit reduction
	◆ Develop low energy consuming products	* Weight reduction	● Meet customer requirement
◆ Reduce LPG consumption by 5%/unit	* Reduce LPG use 1%/unit	● 14.7% reduction	
◆ Action by employees	* Use efficient energy supply method * Plan introduction of energy efficient equipments * Promote work improvement	● Contribute to reduction in energy consumption	
Save Resources	◆ Reduce paper usage by 5%/unit	* Reduce paper use 1%	● 2.9% reduction
	◆ Action by employees	* Execute and accelerate WR proposals * Prevent supplier defects * Reduce in-process rejections by process quality improvement * Promote work efficiency	● Contribute to conservation of resources
Product Recycling	◆ Improve recycling ratio	* Improve recycling rate	● Improved recycling rate
Environmental stress Reduce Chemicals	◆ Reduce component usage in product	* Reduce refrigerant quantity	● Met customer requirement
	◆ Reduce surface treatment material use by improving the process	* Investigate surface treatment process improvement opportunity	● Completed successfully
	◆ Reduce the quantity of flux used	* Reduce flux use 5%/unit	● Reduced 3.3%/unit
	◆ Action by employees	* Activities to reduce environmental burden due to cleaning process at supplier * Meet the targets of European environmentally regulated substances	● Made successful contribution to reduce environmental burden
Reduce waste	◆ Continue zero emission	* Re-usage of waste 99% Min.	● Achieved 99.3%
	◆ Action by employees	* Recycling of scraps and reduction of waste * Introduce environment friendly fittings and components * Disposal restrictions of products (design change, accumulated parts)	● Contributed to recycling
Others	◆ Action by employees	* Conduct environmental assessment and its disclosure	● Conducted environmental assessment and disclosed (to continue)

	Plan for 2007	
	Environmental Objective (Mid-term Target) (FY 20 ~ 24) : Till March 2011 Against FY 20, results	Environmental Target (Short Term Target) (Reduction for one Year: △% reduction /year against FY20)
	* Overall power consumption.....5% /unit	● Overall power consumption....1%/unit
		● Product development 1%/h
		● Production, general affairs...production equipment 1%/unit
		● Weight reduction of HVAC unit
	* Develop energy efficient products	● Weight reduction of HVAC unit
* Reduce LPG use 5%/unit	● Reduce LPG use by 1%/unit	
* Action by staff	● Improve efficiency of utilities by process improvements, rationalization of supply method ● Plan installation of energy efficient facilities and equipments ● Prevent supplier defects ● Control equipment running time by process improvement ● Rationalization of logistics	
* Reduce paper use 5%	● Reduce paper use 1%	
* Action by staff	● Rationalization of core computer system operation ● Information security control ● Reduce material ● Prevent supplier defects ● Inventory optimization by sharing of prompt order information ● Reduce copying papers	
* Improve recycling rate	● Improve recycling rate	
* Reduce the quantity of material used	● Reduce refrigerant quantity	
* Reduce surface treatment material 5%/unit	● Reduce surface treatment material 2%/unit	
* Reduce flux usage 5%/unit	● Reduce flux use 1%/unit	
* Action by staff	● Activities to reduce environmental burden due to cleaning process at supplier	
* Action by staff	● Promote purchase of environment friendly, clean products ● Conduct optimization of components to improve durability ● Logistics improvements & product disposal restrictions	
* Action by staff	● Environmental assessment and disclosure ● Investigate participation in forest conservation programs ● Investigate donation, participation in forest conservation programs ● Manpower development and uplifting morals
